## HONORING A LOCAL HERO

This month we are honoring a local hero, Mark Astor Esquire. Mark was born and raised in the United Kingdom. He came to the US for college where he received his Bachelor of Arts Degree from the University of Michigan in 1990, his Juris Doctorate from Nova Southeastern University College of Law, and his Master of Laws Degree (L.L.M.) from American University.

Mark began his legal career as a Palm Beach County Assistant State Attorney and served as Chief of two different County Court Divisions and, thereafter, was promoted to a felony trial division. He has handled thousands of cases ranging from first-degree misdemeanors to Capital Murder.

In February 2016, Mark formed a concierge law service dedicated to helping families and individuals suffering from substance abuse and mental health disorders.

Mark empowers members of the community by teaching Krav Maga (the Israeli system of hand-to-hand taught to the military, special forces, and anti-terror units). Mark is a black belt in Krav Maga and conducts Krav Maga training to raise money for Jewish Family Services and the IDF.

Summer Travel**

TALLAHASSEE, Fla.- As the temperatures rise and summer arrives in the Sunshine State, The Florida Department of Highway Safety and Motor Vehicles (FLHSMV), our division of the Florida Highway Patrol (FHP), and our public safety partners are committed to promoting safe and enjoyable travel experiences for all Florida citizens and visitors.

With additional vehicles on the road, drivers face an increased risk, especially those unfamiliar with Florida's weather or road conditions. It is essential that anyone traveling across the state familiarizes themselves with their route and ensures that their vehicle is in good condition as they begin their journey.

**VEHICLE MAINTENANCE:**

- **CHECK YOUR WINDSHIELD WIPERS** – If your wiper blades do not clear rain or debris and instead smear them, you should replace them. Functional blades should provide a clear windshield.
- **HEADLIGHTS** – Sun damage and age can cause headlights to turn yellow and cloudy. Cloudy headlights can limit your ability to see and be seen on the road. If you have an older vehicle, consider changing the headlight casing or using restorative cleaners to improve visibility.
- **TIRE PRESSURE** – Before relying on your vehicle to carry friends, family, and loved ones, it is critical that you check the tire pressure to ensure the tires can sustain the extra load associated with luggage or other travel necessities.

- **TIRE TREAD** – Tire tread provides the gripping action and traction that prevents your car or truck from slipping and sliding, especially when the road is icy or wet. Tires are unsafe and should be replaced when the tread is worn down to 2/32 of an inch.
- **TEMPERATURE** – Sustained high temperatures (for example, driving long distances in hot weather) can cause a tire to deteriorate, leading to blowouts and tread separation, leading to an unsafe vehicle that is dangerous to drive.

## At Silver Injury Law We Have Been Known to Walk "The Last Mile"

At Silver Injury Law we've been known to walk the "last mile" for our clients meaning that, when liability is uncertain or disputed, we will literally walk the "last mile" on the roadway before an accident happened so that we can see what the other motorist should have seen but didn't. We are mindful that, while we will move on to the next case, our clients only have one case so we conduct our own investigations to turn over every stone so that Justice can be allowed to prevail. Absolutely nobody is as thorough as me and my team in our pursuit of justice. - **Bruce Silver Esq.**
